LOGISTICS INDUSTRY >>

Logistics is one of the most important basic industry for any economic growth as it is the management of the flow of products from the place of their origin to the place of their consumption, thus the industry also involves the integration of material handling, warehousing, packaging, transportation, shipping security, inventory management, supply chain management, procurement and customs service. The logistics industry in India is evolving rapidly and it is the interplay of infrastructure, technology and new types of service providers that will define whether the industry is able to help its customers reduce their logistics costs and provide effective services.

Logistics sector in INDIA has today become an area of priority. One prime reason for the same stems from the reason that years of high growth in the Indian economy have resulted in a significant rise in the volume of freight traffic moved.

LOGISTICS IN KERALA >>

Logistics sector has a lot of growth potential in Kerala. Considering the geographical advantage and the proximity to international maritime routes, Kerala will certainly emerge as the right logistics hub of the southern states. The ICTT project is also set to launch a series of ventures including the Rs. 1600 crore LNG terminal, the port based Special Economic Zone (Rs. 1510 crore), International Ship Repair Complex (Rs. 315 crore), SBM (Single Buoy Moorings) for Kochin Refineries Ltd. (Rs. 720 crore), Petro-Chemical Complex for Gas Authority of India (Rs. 7000 crore), International Bunkering Terminal, Buld Cargo Terminal, Cruise Ship Terminals, International Marina etc...
